BURLINGTON ICE FACILITY / JAIL

1000 DISTRICT AVE BURLINGTON, MA

INHUMANE, ILLEGAL

WHAT'S HAPPENING?

The Burlington ICE Facility (BIF) operates out of an unassuming office building zoned strictly for administrative use. Individuals report here for check-ins—where some are detained and deported without a hearing—or are brought in after being taken from the street.

Inside, conditions are severe. Detainees face a complete lack of basic necessities: no beds, no windows, no blankets, and no showers. Lights blaze 24/7, making sleep impossible, while individuals receive no proper meals—only meager snacks—and no access to medicine. Furthermore, released immigrants are often freed without notice in the middle of the night, having had their phones, IDs, and money confiscated.

ISN'T THAT ILLEGAL?

Yes! Immigrants are detained with no due process and illegal conditions which violates the Constitution, The facility defies Burlington Town zoning and state fire codes. Congresspeople who have toured or attempted to tour the building agree the conditions are completely unacceptable.

The Burlington Select Board has gone to court multiple times to force an inspection, only to face moving goalposts from judges who reject each attempt with a different excuse—such as demanding an affidavit attesting to the conditions and proof of inspection attempts, all within an impossible three-day window.
